NDUS Report on Economic Impact

The chief opportunity engine for North Dakota and North Dakotans, the University of North Dakota is the state's most comprehensive intensive research university and the primary center for professional education and training. According to a 2015 study, UND's economic impact on the state and region is \$1.9 billion. Levels of business activity resulting from UND expenditures supported 4,056 secondary (indirect and induced) jobs in FY2015. UND also exerts an economic impact through its students. Seventy-two percent of family medicine physicians practicing in North Dakota either graduated from the UND School of Medicine & Health Sciences or completed an in-state residency*. Additionally, UND has educated a significant number of the engineers and oil and gas experts working in the oil industry that is so critical to the state's economic health, and has graduated many of the professionals in other sectors across the state including business, education and health.
