SAP FAQ Answers:

- SAP status is based on prior term's progress and is cumulative – evaluated after grades post each term
- Petitions always due by first day of class and mid-June for Summer term
- Students should submit petition ASAP even if documentation from advisor is not ready
- All attempted credits are counted by career, not program – a student's transfer credits will factor in.
- Having excess credits due to changing majors, transfer, or previous degree is an acceptable extenuating circumstance.
- Completion Rate = all successfully completed credits / all attempted credits (repeats and Ws included) must be 66.67%+
- Warning Status: student is not meeting SAP but has a term to try meet on their own before disqualification
- Info Status: Student is approaching maximum credits – they may need to petition if they won't finish their degree by limit
